

Eye Lash Lift Aftercare

The Lash Lift is a very low maintenance procedure compared to eyelash extensions, however, there is a little extra care required over the first 24-48 hrs whilst the lift is still settling into place and below are a few tips to help you get the longest results.

Aftercare Instructions:

- Be gentle with your lashes, no rubbing.
- Do not get your lashes wet for the first 24 hrs
- Do not use harsh products on your eyes/lashes.
- Use of sauna/steam is possible after 24 hrs but may weaken the effect of the lift.
- No eye make up for 24hrs
- Do not use eyelash curlers
- Avoid waterproof mascaras
- Swimming should be avoided for at least 24 hrs
- Be aware that swimming can weaken the lift quicker.
- No other facial beauty treatments for 24 hrs.

Remember, the lash lift procedure is similar to a hair perm, and as such the hair must be kept well nourished and treated delicately to avoid breakage/weakening.

We recommend:

Using gentle soap free products around the eyes. Daily use of a lash nourishing serum/conditioner. Pat gently to dry.
